# INDEX.

**NOTE.—Illustrated articles are marked with an (*) asterisk.**

ARTICLES.

A. M. Scott, twin-screw tunnel boat..... 171
Acetylene marine signals ..... *403
Aeneas, Australian liner ..... 219
Ann Arbor No. 5, car ferry..... *168
Anti-rolling tanks at sea, reports of trials. 348
Aquitania, the new Cunarder..... 222
Arkansas, launch of..... *75
Armor, for heavier. Koon ..... 399
Auburn, steel tug ..... 50
Auxiliaries, electrically operated..... *259
Auxiliary motor ships, French. Peltier.. *198

Babbitt metal. Greenburg ..... 306
Bamania, St. Joseph, stern-wheel boat.... 457
Barge canal, New York State..... 176
Benjamin B. Odell, Hudson River boat.. *242
Bids and contracts for U. S. naval vessels. 13
Board of Trade examiners ..... 180
Boiler accident on the Delaware..... 180
Bow-on collisions..... *371
Barge, twin-screw oil..... *120
Battleship Arkansas, launch of..... *75
Battleship Conqueror, British..... *49
Brazilian dry-dock ..... *1
British battleship Conqueror ..... *49
Broom handle, a useful ..... 176
Bucket and suction dredge..... *186
Bucket dredger Heito Maru..... *181

Canal, New York State barge..... 176
Cantilever crane, 200-ton..... *243
Car ferry Ann Arbor No. 5..... *168
Cargo handling at small piers. Harding. *317
Cargo transferring. Harding ..... *237
Cartier, Canadian survey steamer..... *369
Catherine, French steam trawler..... *236
Cavitation, further notes on. Barnaby... *321
Chain and rope towage on German river steamers. Dietze ..... *433
Chain and rope towage on German rivers. *498
Charles Roux, French turbine steamer... 370
City of Baltimore, Chesapeake Bay boat.. *318
City of Norfolk, Chesapeake Bay boat.... *318
Clay-cutting suction dredger..... *177
Coal-handling gear on the Neptune..... *352
Coaling vessels, modern methods of..... *45
Cockerill oil engine ..... 392
Collier Neptune, U. S..... 415
Collier Newton ..... *484
Collier Suffolk, single-screw steel..... *416
Colliers and tugs for the U. S. Navy.... 309
Column tables for ship work. Anderson.. 25
Coming big Cunarder ..... 222
Compound non-condensing machinery.... 440
Condenser, Japanese design ..... *152
Congestion of freight traffic at New York steamship terminals ..... *506
Connaught, single-screw tunnel launch... *453
Conqueror, new British battleship..... *49
Contracts for U. S. destroyers..... 404
Control and equipment of water terminals. 125
Corozal, steamship ..... *368
Corrosion, resistance in tubes and fittings. 353
Curtis marine steam turbines for Italian scout cruisers ..... 346
Crane, twin-screw floating ..... *221
Cruiser Lion ..... 117
Currier, tank steamer..... *20
Cyclops. Martin ..... *495

Delaware, deck view of battleship..... *283
Deluge, Baltimore fireboat ..... *314
Derelicts, location and disposal of...*405, 460
Design and construction of freight steamships. McL. Harding ..... *237
Destroyer Mendoza, Argentine ..... *203
Destroyers Perkins and Sterrett..... *51
Destroyers Warrington and Mayrant..... *227
Development in sea transportation of Swedish ore, recent. Johnson..... 398
Diesel engine in maritime work..... *387
Diesel motors, marine ..... 153
Diesel oil-engined vessel Toiler..... *255
Dock elevator ..... *510
Docking facilities of New York..... *230
Dredge, combined suction and bucket.... *191
Dredge, hydraulic pipe line..... *183
Dredge, New Orleans, U. S. suction..... *192
Dredge, Owenaminaue, self-propelled..... *185
Dredge, St. Lawrence, suction hopper.... *181
Dredge, 20-inch hydraulic ..... *175
Dredger, Adelaide, seagoing bucket..... *185
Dredger, bucket, Heito Maru..... *181
Dredger, clay-cutting hydraulic. Lobnitz. *178
Dredger, clay-cutting suction..... *177
Dredger, Hsin-Ho, twin-screw..... *186
Dredger, suction. Werf Conrad ..... *189
Dredger Uruguay, self-propelling..... *194
Dry-dock, electrically-controlled railway. 204
Dry-dock for Brazil, 22,000-ton..... *1
Dry-dock for the United States government, side-haul railway..... *402
Dry-dock of the Toledo Shipbuilding Co. *69
Dry-docks, floating, relative value of..... 150
Dutchess, screw ferry boat ..... *11

Economical handling of freight..... 289
Economical working of reciprocating marine engines and their auxiliaries. Morison .....*55, 96
Economy of oil fuel installation..... *158
Engineering progress, naval. Cone..... 14
Electric generating plants, distribution and interior communication systems... *265
Electric drive in shipyards..... 270
Electric steering gear ..... 280
Electrical equipment of Mauretania..... *275
Electrical equipment of shipyard tools... 272
Electrical propulsion of vessels..... *256
Electrical wiring of steamships..... 273
Electrically-operated auxiliary apparatus. *259
Electrically-controlled railway dry-dock... *204
Electrification of marine works..... 271
Electricity for dredging gold..... *187
Ellicott dredge ..... *183
Excellencia, single-screw river steamer... *457

Ferry, Ann Arbor No. 5..... *168
Ferry steamer Pupuke ..... *284
Ferry-boat Dutchess ..... *11
Ferry-boat, Kennett ..... *203
Ferry-boat San Pedro ..... *345
Flat, oil engine ..... *392
Fire-boat Deluge ..... *314
Fire-boat oil motor ..... *315
Floating crane, twin-screw ..... *221
Floating dry-dock for Brazil..... *1
Floating dry-docks in the United States, relative value of wood and steel for their construction. Donnelly ..... 150
Foam, American-built steam trawler..... *235
Forges and Chantiers de la Mediterranée. *113
Francesco Salles, stern-wheel steamer.... *444
Freight, economical handling of..... 289
Freight, mechanical handling of. Fowler. 122
Freight steamships, design of. Harding.. *237
Freight-transferring machinery at Antwerp. McL. Harding ..... *400

Gas engines .....349, 418, 458
Gas engines. Percy ..... 487
Generating sets ..... *265
Germania oil engine ..... *393
Gio. Ansaldo-Armstrong & Co., shipbuilding and engineering works of..... *108
Gold dredging by electricity..... *187
Golden Gate, revenue cutter..... *158
Graphical ship calculations ..... *232
Grenfell, stern-wheel steamer for Congo.. *443
Gyro-compass. Sperry ..... *412
Gyroscope for marine purposes. Sperry. *62

Hamburg-American steamship Imperator. 232
Handling of freight, economical..... 289
Honolulan's voyage around the Horn.... 201
Hopper dredge ..... *185
Hopper dredge St. Lawrence ..... *181
Hydraulic dredge ..... *175
Hydraulic dredger for the river Nile.... *178
Hydraulic pipe-line dredge ..... *183

Indicator, marine.....*28, 52, 105, 160, 249
Institution of Naval Architects, jubilee meeting of ..... 221
Italy's first turbine-driven cruiser, the San Marco ..... *477

J. Pierpont Morgan, lake carrier..... *144
Joyeuse, twin-screw motor yacht..... *70

Kennedy, high-speed ferry-boat ..... *203
Kensington, tug-boat ..... *203
Kerosene engine craft. Wilson..... *319
Lake freighter, random notes on a .... *144
Launch of the Titanic ..... *281
Launches for the Turkish government.. *441
Launches, seamless steel shallow-draft... *444
Legal decisions, recent.....207, 209, 339, 379
Lien-Ching, twin-screw yacht ..... *140
Light-draft tug Maria Hendrika III..... *450
Lighting ships ..... *267
Lion, British battle cruiser ..... 117
Loading plants, economical results..... *363
Lobnitz dredge ..... *178

Machine tools for shipyards..... *129
Machinery for the Olympic..... *217
Madison, steamship ..... *137
Maine, work on the wrecked battleship... *354
Maria Hendrika III., light-draft tug.... *450
Marine engines and their auxiliaries, economical working of. Morison.....*55, 96
Marine engine indicator..*28, 52, 105, 160, 249
Mauretania, electrical equipment of..... *275
Mayrant, torpedo-boat destroyer..... *227
Mendoza, Argentine destroyer ..... *203
Mechanical handling of freight. Fowler.. 122
Merchant ships, powering and design of.. *310
Merchant vessels, stability of. Nichol.. *148
Metapan, fruit steamship ..... *365
Mietz & Weiss oil engine..... *464
Mishaps to vessels, some recent..... *142
Missouri River navigation, renewal of.... *448
Mitsu-Bishi Dockyard and Engine Works. *89
Model test on a steamer. Holbrook..... *480
Montoso, for Porto Rican service..... *368
Moosehead, Bar Harbor steamer..... *301
Mosher marine boiler, test of..... 67
Motor boat, flying. Perkins ..... *155
Motor boat for China, commercial..... *442
Motor boats, stern-wheel. Allen..... *446
Motor ships, French auxiliary. Peltier.. *198
Motor yacht Joyeuse ..... *70
Motors, Diesel marine ..... 153

Naval collier Cyclops. Martin..... *495
Naval engineering progress. Cone..... 14
Naval programme for 1911..... *163
Naval review, American..... *502
Naval vessels, bids and contracts for..... 13
Navigation on the Missouri River, renewal *448

95538

Navy reports, 1910 ..... *12
Neptune, U. S. collier ..... 415
New Orleans, suction dredge ..... *192
Newton, steel steam collier..... *484
New York barge canal and the hydraulic dredge ..... *188
New York, docking facilities of ..... *230
New York State Barge Canal..... 176
Newport News Shipbuilding Co..... *106
Niseco oil engines ..... *463
Northwestern, accident to..... *142
Notre Dame des Dunes, steam trawler.... *372
Nurmburg Diesel engine ..... 392

Oil barge ..... *120
Oil engine, Mietz & Weiss..... *464
Oil, marine engine, 1,000 horsepower.... *201
Oil engine, reversible 300-horsepower.... *312
Oil-engined vessel Toiler ..... *255
Oil engines and thermal efficiency..... 348
Oil engines in the maritime world..... *387
Oil engines, Nlseco ..... *463
Oil fuel installation, remarkable economy. *158
Oil fuel statistics ..... 236
Oil-motor fire-boat ..... *315
Old Transatlantic steam liners. Bradlee. *7
Olympic, the White Star steamship..... *217

Paso de San Lorenzi, river steamer..... *141
Perkins, torpedo-boat destroyer..... *51
Personals..43, 171, 210, 250, 299, 330, 340, 346, 377, 403, 503
Polar Diesel engine ..... *391
Powering of merchant ships and design of *310
Prince Rupert, twin-screw steamer..... *364
Princess May, stranding of ..... *143
Producer gas plant on barkentine Archer. *244
Progress of dissolved acetylene for marine signals ..... *403
Propeller experiments ..... *229
Propulsion of vessels, electrical ..... *256
Pupuke, ferry steamer ..... *284

Quadrant crane ..... *509
Quevilly, French auxiliary ship..... *198

Railway dry-dock electrically controlled.. *204
Railway dry-dock, side haul ..... *402
Rateau turbines applied to warships..... *331
Repair of a worn plate and leaky joint.. 122
Report concerning the United States Navy 12
Reports of trials with anti-rolling tanks.. 348
Revenue cutter Golden Gate..... *158
Revenue cutters, two new ..... *303
Review of marine articles ..... 468
Review of marine articles in the engineering press ..... 511
Reciprocating marine engines and their auxiliaries, economical working.....*55, 96
River boat Benjamin B. Odell..... *242
River steamer Excellencia ..... *457
River steamer Saguenay..... 433
River tug ..... *439
Rochambeau, new Transatlantique steamer 409
Royal Standard, kerosene engine..... *319

Sabathé oil engine ..... *389
Saguenay, American river steamer..... 433
St. Nazaire Shipbuilding Co., Ltd..... *116
Salvage operations, novel ..... 209
San Marco ..... *477
San Pedro, side-wheel ferry-boat..... *345
Sankaty, steamer ..... *224
Seagoing bucket dredger Adelaide..... *185
Seamless steel shallow-draft launches.... *444
Selected marine patents..*44, 88, 128, 172, 216, 254, 300, 344, 386, 430, 475, 524
Shallow-draft Amazon steamers..... *141
Shallow-draft vessel Tongku Miriam..... *449
Shallow-river navigation, history of..... *431
Ship calculations, graphical ..... *232
Ship ventilation ..... *280
Shipbuilding....40, 84, 292, 303, 323, 404, 444, 463
Shipbuilding in 1910..... 74
Shipbuilding record ..... 503
Shipyard equipment ..... *129
Shipyard of Forges & Chantiers de la Mediterranée ..... *115
Shipyard of Messrs. Gio. Ansaldo-Armstrong & Co. ..... *108
Shipyard of the Newport News Shipbuilding & Dry-Dock Co..... *106
Shipyard of the St. Nazaire Shipbuilding & Engineering Co. ..... *116
Shipyards, electric drive in..... 270
Shipyards of the Mitsu Bishi Co..... *89
Shipyards of Yarrow & Co., Ltd..... *102
Side-haul railway dry-dock ..... *402
Sioux, steamer ..... *285
Society of Naval Architects and Marine Engineers, nineteenth annual meeting.. 463
Society Naval Architects and Marine Engineers, nineteenth annual meeting... 513
Southport, steamer ..... *347
Southwark, tug-boat ..... *203
Sovereign, 35-mile steam yacht..... *222
Sovereign's machinery ..... *355
Sperry Gyro-compass ..... *412
Stability of merchant vessels. Nichol... *148
Steam yacht Sovereign ..... *222
Steamboat inspection rules ..... 66
Steamer Moosehead ..... *301
Steamer Charles Roux ..... 370
Steamer Currier ..... *20
Steamer Rochambeau ..... 409
Steamer Sankaty ..... *224
Steamer Sioux ..... *285
Steamer Three Rivers ..... *195
Steamers City of Baltimore and City of Norfolk ..... *318
Steamers Southport and Westport..... *347
Stearing gear, electric ..... 280
Stearmship Aeneas ..... *219
Steamship Madison ..... *137
Steamship Metapan ..... *365
Steamship Olympic, machinery for..... *217
Steamship Prince Rupert ..... *364
Steamship Suwannee ..... *161
Steamships Corozal and Montoso..... *368
Sterrett, torpedo-boat destroyer..... *51
Stern-wheel motor boats. Allen..... *446
Stern-wheel river boats, American-built... *456
Stern-wheel steamer Francesco Salles.... *444
Stern-wheel steamer Grenfell..... *443
Submarine boat wrecker ..... *362
Submarine signalling ..... 269
Submarine vessel. Dietze .....*357, 394
Suction dredge New Orleans..... *192
Suction dredger ..... *177
Suffolk, single-screw steam collier..... *416
Sulzer Diesel engine ..... *391
Surface condenser, Japanese design..... *152
Survey steamer Cartier ..... *369
Suwannee, passenger and freighter..... *161
Switchboards ..... *267

Tank steamer Currier ..... *20
Telephones ..... *267
Terminals, control and equipment of..... 125
Test of a Mosher marine boiler..... 67
Testing corrosion resistance in tubes..... 353
Three Rivers, Chesapeake Bay steamer... *195
Titanic, launch of ..... *281
Toiler, a Diesel oil-engines vessel..... *255
Toledo Shipbuilding Co., dry-dock of..... *69
Tonnage and trade of the port of London. 360
Tow-boats for Florida River..... *453
Transatlantic steam liners, old. Bradlee. *7
Transferring cargoes from Seattle docks. *506
Trawler ..... *372
Trawler, steam .....*235, 236
Tug Auburn ..... 50
Tug boats Southwark and Kensington.... *203
Tug Maria Hendrika III., light draft.... *450
Tug, single-screw steel river..... *439
Tugs and colliers for the U. S. Navy..... 309
Tungku Miriam, a shallow-draft, 63-foot motor vessel for the British colonies.. *449
Tunnel launch Connaught ..... *453
Tunnel steamer for the Amazon..... *457
Turbine reluction gear, Westinghouse... *489
Turbine steamer Charles Roux..... 370
Turbines for Italian scout cruisers..... 346
Turbines, rational application of to the propulsion of warships. Rateau..... *331
Twin-hatch steamer with central deck ballast tank ..... *361
Tyreless III., speedy motor boat ..... *372

U. S. destroyers Perkins and Sterrett... *51
United States naval programme for 1911. 163
Unofficial reports ..... 459
Utah, recent trials of.....*323, 362

Ventilation ..... *280
Ventilation of passenger ships. MacPhee. *493
Vibration phenomena of steamers, our present knowledge of. Schlick ..... *326
Vulcan, wrecking submarine boat..... *362

Warrington, torpedo-boat destroyer..... *227
Westinghouse marine turbine reduction gear ..... *489
Westport, steamer ..... *347
Wireless telegraphy, developments in.... *278
Wiring ..... 270
Wiring of steamships ..... 273

Yacht Lien Ching ..... *140
Yarrow & Co., Ltd., works of..... *102

LIBRARY DEC 6 1911

### COMMUNICATIONS.

Heating surface of boiler tubes..... 171
Information wanted ..... 43
More remarks on cargo loading..... 340
Notes on the strength of ship columns... 428
Simpson's rule for beam of a vessel..... 87
Terminal improvements at the port of New London. H. McL. Harding..... 384
Use of concrete in a steel hull..... 171

### EDITORIALS.

Chain Towage on German rivers..... 470
Development of the oil engine..... 424
Dredges and dredge work ..... 208
Economy of oil fuel..... 170
Economical handling of freight.....248, 288
Electricity for marine work..... 288
Harbor marine engineering ..... 378
Improving the economy of reciprocating engines ..... 83
Improving terminal facilities ..... 425
Inland waterway traffic..... 470
Matters of interest from the jubilee meeting of the Institution of Naval Architects ..... 338
Naval architects' meeting..... 520
Naval engineering progress ..... 39
Oil engines for propulsion..... 208
Practical operation of steam turbines..... 38
Progress in marine engineering and naval architecture ..... 82
Seafaring men vs. engineers ..... 378
Shipbuilding revival in the United States. 424
Significant change ..... 38
The modern shipyard ..... 124
Three remarkable ships ..... 248
Use of concrete on board ship..... 288

### ENGINEERING SPECIALTIES.

Acetylene welding and cutting machine.. *427
Air pump, marine type, "Leblanc"..... *251
Bender and straightener, power..... *127
Blowing outfits, battleship and yacht..... *383
Boiler circulator, marine. Ross-Schofield. *295
Boiler cleaner, electric safety..... *43
Boiler "Maxim" with Allison economizer and arch drum. Allen Stirling..... 426

Boiler "Robb-Brady." Rob Engineering. *426
Centralized valve gear for stern paddle-wheel engines. Marine Iron Works... *472
Centrifugal pumps and electric plants.... *296
Chuck, high-speed universal "Columbia".. *382
Coal-oil apparatus, "Gregory" patent.... *427
Coaling outfit. William J. Inglisbee..... *252
Condenser packing tool. E. P. Strode... *472
Conveyor, portable, "Jeffrey"..... *296

Diesel engine, Kind ..... *522
Drill, electrically-driven radial..... *212
Drive for flat twist drills..... *126

Electric drive for shipyard tools. Vickers. *297
Electric light sets, direct-driven..... *293
Electric lighting sets, "Brush".....*297, 474
Electric lighting sets, compact..... *382
Electric Punkah ..... *523
Engine, caloric. Svea Caloric Engine Co. *86
Engines, Diesel, for auxiliary purposes... *292
Engines, horizontal. B. F. Sturtevant Co. *40
Exhaust silencer ..... *128

Fan "Ventura." American Blower Co.. *253
Fans, "E. M. I.," cabin..... *297
Fogometer. Smith ..... *84
Freight carrier. Reno Inclined Elevator. *212
Freight chute. G. A. Swain..... *473
Fuel oil burner. Ingram Fuel Oil Burner. *84

Hose-coupling strainer, "Quix" pneumatic. *128
Howden draft for dredges..... 213
Hydraulic press. Watson-Stillman Co... *296

Indicating and recording pyrometers, combination. Bristol Co. ..... *298
Indicator, engine. McNab..... *294
Indicator, speed and direction. Purvis... *251

Lever splitting shears, "Beloit"..... *87
Lighting set. American Blower Co..... *298
Lighting set, 12-K. W. Speedway gasolene. *293
Lighting steamship piers..... *127
Lubricator, "Holtrop," automatic..... *251

Machine versus hand method of stoking.. *473
Motor. J. W. Brooke & Co..... *85
Motors, electric, for shipyard tools..... *292

Nautical instrument. Heath & Co., Ltd.. *295

Packing, automatic. Ideal Automatic.... *42
Piston packing, automatic ..... *343
Press, hydraulic. Watson-Stillman Co.... *253
Pump governor, automatic..... *40
Pumps, centrifugal ..... *211

Reversing motor drive ..... *384
Riveter, electro-hydraulic portable..... 294
Rope. Columbian Rope Co. ..... *383
Rope tests. Plymouth Cordage Co..... *86

Searchlight. Carlisle & Finch..... ..... *85
Searchlights. Carlisle & Finch Co..... *297
Searchlights. Siemens Brothers'..... *294
Separators in connection with live and exhaust steam ..... *342
Ship furniture in steel..... *342
Shipyard equipment supplement..... *129
Soot blower, new front end..... *343
Spark plug wrench. Williams & Co..... *84
Splitting shear. Henry Pels & Co..... *86
Steam cock, "Bradford" ..... *40
Steam engines, "Acme"..... *426
Steam trap "Komo." Linton Machine Co. *41
Steam trap. Lytton Manufacturing Co... *472
Steam turbine outfits for electric generation. Greenwood & Batley, Ltd.... 296
Steel in dredger work. Edgar Allen & Co. *212
Stoker, "Jones," as applied to dredges.... *210
Stop valve. Hopkinson-Ferranti patent.. *252
Stub yoke and rod ends..... *211

Testing set, portable. Queen & Co..... *383
Thermit welding process..... *213
Torch, kerosene. Hauck Mfg. Co..... *211
Triplex pump, electrically operated..... *292

Valves, "Dermatine" ..... *382
Valves, "H. B." Witting Bros., Ltd.... *42
Ventilating fans. American Blower Co.. *295

Winches and capstans, shipyard. Royce.. *293

## PRACTICAL EXPERIENCES OF MARINE ENGINEERS

A little comparison ..... 79
Air-pump troubles ..... *78
Another method of repairing a fractured shaft. Mason ..... *422

Bilge pump ram, broken. McLaren..... *246
Boiler experiences at sea..... *374
Broken reversing block ..... 167
Broken sanitary suction pipe..... *205
Broken thrust shaft ..... 33
Broken winch-valve spindle. Brown..... *80
Broken worm of steering-gear engine shaft ..... *376
Burst condenser ..... *286

Calking and welding at sea..... *205
Capstan motor, trouble with. Booth..... 423
Concrete in an old hull. Miller..... 286
Condenser, burst ..... *286
Condenser tubes, plotting of. Percy..... *335
Cut-off for mid-gear position. Holloway. *422
Cylinder blown out, high-pressure..... 80

Eccentric strap, broken ..... *246
Engineers' license in America and England ..... 79
Experiment with retaining pins..... *287
Explosion of a valve receiver. Suzara.... *32

Feed-pump barrel, fracture of..... 423
Feed-pump troubles ..... 80
Fire at sea ..... 79
Fracture of a feed-pump barrel..... 423
Fractured shaft, another method of repairing. Mason ..... *422

High-pressure cylinder side and bottom knocked out ..... 80
How a spare propeller and shaft were fitted at sea ..... 164
How the work was done by "Coupling". 373

Ice-making experiment ..... *81
Indicator cards from triple-expansion engine. Mason ..... *467

Jacking engine, repairs to..... *466

Knifing out valve seats in place..... *37

Leaky condenser ..... 165

Making use of odds and ends. Enfield.. *36
Mending a cracked shaft..... *377
Minnesota, breakdown of. Hill..... *420

Oil-tank steamer, trouble on..... 466
One way of making a false valve seat for marine engine ..... *246

Parsons turbines, practical operation of. 33
Pipe work, steam and exhaust..... *335
Plotting condenser tubes. Percy..... *335
Practical operation of Parsons turbines. 33

Remarkable series of breakdowns. Hill... *420
Repair of broken rudder pintle bolts.... *164
Repair to broken slide spindle gland..... *79
Repairing a broken shaft. Webster..... 373
Repairing a broken low-pressure cylinder at sea ..... 466
Repairing a broken shaft ..... *337
Retaining pins, experiment with..... *287
Reversing block, broken ..... 167
Rudder pintle bolts, repair of..... *164

Sanitary suction pipe broken..... *205
Setting propeller blades on the Great Lakes ..... *206
Shaft, repairs to ..... *337
Ship on fire at sea ..... 79
Slide valve spindle, repair of..... 81
Spindle gland, repair of..... *79
Steam and exhaust pipe work on board ship ..... *335

Temporary repair of a high-pressure slide valve spindle ..... 81
Tiller loose on the rudder head..... 37
Thrust shaft, broken ..... 33
Trouble with a capstan motor. Booth... 423
Trouble with feed pump..... 80
Turbines, practical operation of Parsons. 33

Use of air vessels ..... *247

Vacuum question ..... 167
Valve receiver, explosion of. Suzara.... *32
Valve seats, the knifing out of..... *37

Welding and calking at sea..... *205
Winch valve spindle broken..... *80

## TECHNICAL PUBLICATIONS.

Annual Report of the Mercantile Marine Bureau for the year 1909-1910. Japan. 428
Answers on Refrigeration and Ice Making. Harris ..... 381
Applied Thermodynamics for Engineers.. 171

Blue Book of American Shipping..... 381
Buccaneer Ballads. Visiak ..... 43
Bureau Veritas, 1910-1911 ..... 43

Cape Cod Canal ..... 474
Care, Operation and Management of the Parsons Marine Steam Turbine. Nixon. 299
Cold Storage, Heating and Ventilating on Board Ship. Walker ..... 381

Design and Construction of Ships. Biles. 474
